Hi if you stop XM from providing Instant Traffic & Weather info to us the Trucking community. how are we to get the info take Huston for instance I can't tell you one station that provides that info on free radio simply because I'm not from the area I rely on my XM radio to give me that info.
why is it every time some industry get threaten my new innovations that they cry foul and go to the government to bail them out.

gee I'm \$50,000.00 indebt would you bail me out? I don't think so. my Question why would you bail them out?

Thanks

Grant E. Featherly
